## DETAILED ACTION

### *Claim Objections*

1. Claims 1 – 20 are objected to because of the following informalities:

“transmissible” (claim 1, line 4; claim 4, line 1; claim 5, line 2; claim 6, line 6; claim 8, line 1; claim 9, line 1; claim 10, line 1; claim 11, line 6; claim 13, line 1; claim 14, line 1; claim 15, line 1; claim 16, line 5; claim 19, line 1; claim 20, line 2)

Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1 – 20 are rejected under 35 U.S.C. 102(e) as being disclosed by Smith et al. (U.S. Pat. No. 6,529,903).

3.1 Regarding claim 1, Smith discloses a method of operating a search application via network media in a wireless client device, comprising the steps of:

selecting at least one search option for execution on the wireless client device (Abstract; col. 1, lines 20 - 35); and

using the search application to receive transmissible media content via a wireless medium based on the at least one search option (Abstract; col. 1, lines 20 - 35).

3.2 Per claim 2, Smith teaches that the selecting step comprises a step of selecting a form use option (col. 1, lines 36 - 40).

3.3 Regarding claim 3, Smith discloses communicating via wireless application protocol (WAP) (col. 1, lines 24 - 27).

3.4 Per claim 4, Smith teaches that the transmissible media content comprises search data (Abstract; col. 1, lines 20 - 35).

3.5 Regarding claim 5, Smith discloses communicating transmissible media content from a data source remote from the wireless client device (Abstract; Fig. 1; col. 1, lines 20 - 35).

3.6 Per claims 6 – 20, the rejection of claims 1 – 5 under 35 USC 102(e) (paragraphs 3.1 – 3.5 above) applies fully.
